## **ELECTRIC CITY SPARKLETS**

Items of Interest and Personal Mention Catcht Over the Wireless on the Streets of Anderson

In Anderson
One of the neatest pieces of work seen in Anderson in quite awhile is the splendid new electric sign, just placed for Dr. M. R. Campbell's optical parlors. The sign is easily one of the best in Anderson and every part of it was constructed here in the city. The metal was furnished by the Divver Roofing Company, the iron came from the Anderson Poundry and Machine Company, the electrical work was ione by F. S. Mauldin and the painting is the work of the H. D. Goss Sign Co. Any one taking a look at the sign must at once be convinced that as good work can be done right here in Anderson as any town in the country.

J. W. Stethrock, county demonstrator for Anderson has returned to the city after a trip of inspection all over the county. Mr. Rothrock says that he is well pleased with the progress the farmers are making and that they are going ahead, slowly but surely. He says that if the fair weather continues for a few days practically all of the farmers in the county will be up with their work by the middle of next week. According to the demonstrator the progress of the demonstrator in the county will be up with their work by the middle of next week. According to the demonstrator in the state of the state

Country School

Closed Besslen.
Soveral Anderson people went to Green Pend School last Thursday night for the closing exercises which were held by that institution. A small admission was charged to the exercises and the sum of \$15.70 was realized. The money will be need during the coming summer months for putting the school building in better than the section building in better shape. The exercises Thursday inght consisted of recitations etc., and the evening was very interesting. The handsome prize for the student making the best record during the year went to Miss Nannie Lee Girard. Another feature of the evening was the address Editored by Dr. Lee Sanders of Anderson.
